(+91)8619165240 | [cs.omnamdeo@gmail.com](mailto:cs.omnamdeo@gmail.com) | [Linkedin](#) | [Product Portfolio](#) | [Github](#)

I'm a product management professional passionate about user-centered innovation and growth. Pursuing an M.Tech in Product Design and Management at IIIT Hyderabad, I have built a strong foundation in product development. My internship at i-Hub Data where I enhanced product features and drove monetization strategies. With expertise in Data Analytics, ML, and Software Development, I'm ready to lead impactful products.

## EDUCATION

### International Institute of Information Technology

M.Tech in Product Design and Management — CGPA: 8.5/10

Hyderabad, India

Aug. 2023 – May 2025

### Lakshmi Narain College of Technology

B.Tech in Computer Science Engineering — CGPA: 8.8/10

Bhopal, India

Aug. 2017 – May 2021

## EXPERIENCE

### Product Management Intern

Feb 2024 – Aug 2024

I-Hub Data

Hyderabad, India

- At I-Hub Data, I led product initiatives for OpenHLS and Data Foundations, focusing on user satisfaction, stakeholder management, and compliance.
- OpenHLS - AI based platform to onboard Bio-informatics projects with streamlined workflows :**
  - Led end-to-end product development, managing key stakeholders from Intel and Microlabs, and addressing user pain points, resulting in a 25% increase in user satisfaction.
  - Enhanced platform by integrating post-processing tools, leading to a 15% boost in user engagement.
- Data Foundations : Dataset management platform :**
  - Streamlined data workflows, improving user retention by 20%, and introduced monetization strategies expected to drive a 30% revenue increase.
  - Spearheaded GDPR compliance, aligning product enhancements with OKRs, which increased platform engagement by 30%.

### Software Engineer

Aug. 2021 – Mar. 2023

Infosys Ltd.

Pune, India

- Contributed to my company's cloud migration project coordinating with the chief architect on virtual machine and database strategy while automating processes to increase efficiency by 30% and enhance client satisfaction.
- Tools used:** Git, Github, JIRA Jenkins, Ansible, Salt, ReactJS, VS code, NodeJs, NPM, Docker, Maven, Vspeher, Figma.

### Cofounder - Helpnet

Mar 2019 – Dec 2019

Azteck Technologies

Bhopal, India

- Launched Helpnet's MVP in a closed NGO community, facilitating collaboration and resource sharing, achieving 200+ help requests per month.
- Gathered stakeholder feedback to enhance user experience, resulting in a 60% retention rate and iterated on product features.

## PROJECTS & CASE STUDIES

- ANNADATA - Hack4Change — Google Hackathon - Finalists :** Led cross-functional team to prototype a mobile app, leveraging Decision Tree model to enhance farmers' ROI and strategic decision-making. ([Github](#))
- ProAi Guard - Detection and Mitigation of Bias in LLM generated code :** Developed a strategic framework to detect LLM code bias, enhancing model fairness, user trust, and engagement. ([Github](#))
- Salesforce Design Days - Entrepreneurship Program for Marginalized Women :** Leveraged design thinking and user research to craft a scalable entrepreneurship initiative, connecting retired professionals with marginalized women via ASHA workers.
- Product School Case Competition: Boosting Creator Monetization on Instagram :** Developed monetization strategy for creators by implementing creator-specific ads and an intuitive analytics dashboard, prioritizing solutions using the RICE framework.
